

SRINIKETH YELE

Aspiring Data Analyst

8500291094 | yelesriniketh123@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Final-year B.Tech (CSE-IoT) student with experience in Python, SQL, Advanced Excel, and data visualization. Completed an internship as a Microsoft Certified System Engineer and worked on IoT and system-based projects. Aspiring Data Analyst with strong analytical skills and a passion for transforming data into actionable insights to support business decision-making.

SKILLS

- **Programming & Web:** Python, C, Java, OOP & data structures fundamentals, basic HTML; built a role-based leave management system with structured access control.
- **SQL & Databases:** Writing queries to store, retrieve, and manage relational data; used SQL with Python for a role-based leave management system.
- **Data Analysis & MS Office:** Advanced Excel for data organisation, formulas, and analysis; proficient in Word and PowerPoint; developing data visualization skills.
- **Tools:** Git for version control, VS Code as primary IDE.
- **Interpersonal:** Communication, time management, teamwork, and adaptability built through academic projects and extracurricular roles.

PROJECTS

Smart Assistive Device for the Visually Impaired (Capstone) | *Arduino, Microcontroller, Ultrasonic Sensor, Servo Motor, Embedded C* | *Team: 2*

- Designed an IoT-based assistive device using a 180° radar-like ultrasonic scanning mechanism to detect obstacles and alert visually impaired users in real time.
- Achieved reliable detection up to 80 cm across 180°, cut false-positive alerts by 60% via threshold tuning, and delivered a working prototype with under 0.8s alert response.

Role-Based Leave Management System (Capstone) | *Python, SQL* | *Team: 3*

- Built a role-based leave management system with distinct access controls for employees, managers, and administrators, automating request-to-approval workflows.
- Cut leave-approval turnaround by 80%, eliminated unauthorized access via role-specific permissions, and replaced spreadsheet tracking with a centralized SQL system for 200 users.

CargoHub.Space - UI/UX Documentation, Fresso Labs | *Figma, MS Word, UI/UX Documentation* | *Team: 2*

- Authored developer-ready UI/UX documentation for 17+ screens across Customer, Provider, and Admin modules of a logistics marketplace, covering dashboards, tracking, analytics, and payments.
- Flagged 10+ design inconsistencies pre-development and established a standardized documentation template adopted across all screen specs.

EDUCATION

- B.Tech, Computer Science Engineering (IoT), Kakatiya Institute of Technology and Science, Warangal (2023-27).
- Pre-University College (PUC), RGUKT Basar (2021-2023).

POSITIONS HELD & INTERNSHIP

- Internship: Microsoft Certified System Engineer, NSIC, Hyderabad, Data Analyst Intern, Fresso Labs, Hyderabad
- Campus Ambassador, Fresso Labs LLP, Bangalore
- PR & O, SAIL | Member, Humanity Club | Class Representative (6 semesters)
